Unique opportunity to own a completely remodeled 2400 square foot, 4 bedroom and 4 1/2 baths Sun Vail condominium. This 2 level condo was originally two separate units, stacked one on top of the other, taken down to the studs during the combining and remodel. This stunning property has top of the line finishes, which include cherry wood flooring, cherry walls and cabinets in the entry, a custom cherry staircase that connects the 2 levels, rough edge slab granite countertops in the kitchen, a custom kitchen backsplash, an attractive gas fireplace in the living area with artistic etchings in the slate stone surround, a custom built-in entertainment center in the living area, all new windows with motorized solar shades in the living area and the master bedroom, new copper piping and much, much more. You will love the beautiful views of the ski slopes from the living area and the master bedroom and the 2 large ski slope facing balconies. As well, the unit has 2 additional balconies. The balcony off the kitchen is perfect for grilling due to the natural gas connection and easy access to the kitchen and dining area.

The floor plan is very spacious with the upper level encompassing the living area, a desk area, the dining area, kitchen, bedroom with ensuite bath
